Perfect partner for standard and custom made solutions

Eillert is one of Europe's leading manufacturers of food processing machinery and complete production lines for the fresh-cut salads, vegetables, potatoes and fruit industry as well as other food market segments.

The company, established in 1929, started manufacturing small vegetable processing machines for greengrocers, large kitchens and catering services. Based on the developments in the fast food / convenience food market and supermarkets, Eillert has developed a wide delivery program from basic stand-alone machines to complete production lines. The reliable, compact and solidly built machines guarantee a most efficient processing of your products resulting in a perfect quality with a long shelf life. Due to the hygienic construction and well thought-out design, the machines are easy to operate, clean and maintain.

With more than 80 years of experience combined with a wide variety of clients all over the world, Eillert is the perfect partner in advising and offering standard and custom made solutions to the food processing industry. In cooperation with her partners, Eillert is capable of handling complete turn-key projects.

Over the past years Eillert has established a worldwide network of skilled and trained agents and dealers to initiate projects and to support the end users with know-how in food processing.

Many international references with well-known food processing and fresh-cut companies prove that Eillert guarantees reliable machines, which process your products efficiently, quickly and hygienically to achieve top quality final products with the highest yields.
