

Automatic weigher WC-25

For weighing carrots, swedes etc in 5–25 kg batches

WC-25 with electronic weighing system

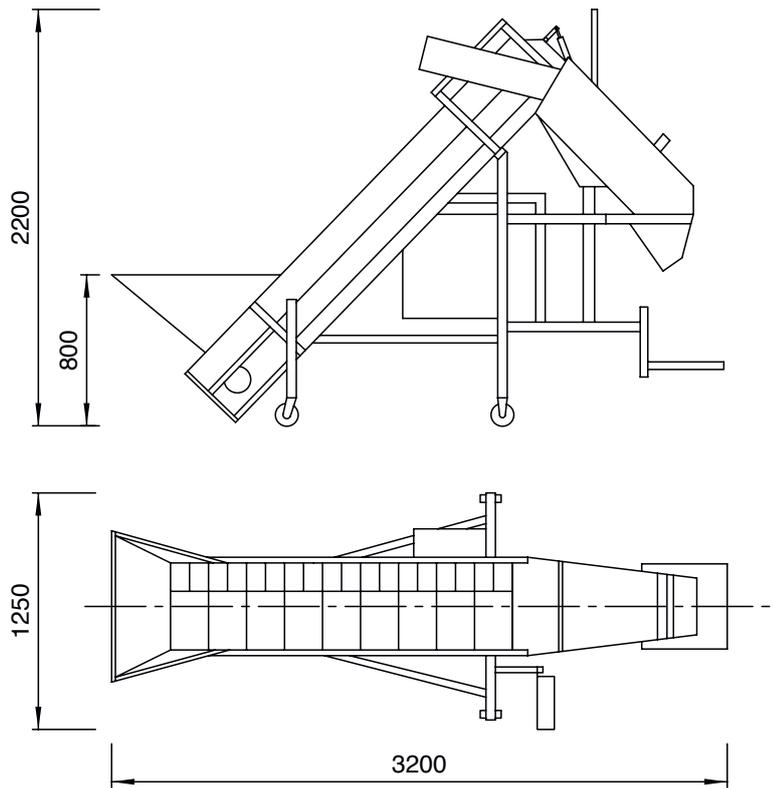

These automatic weighers are intended for weighing carrots, swedes, big potatoes and other long or large products in batches of 5–25 kg.

The double geared motors and the fine and coarse feed belts, combined with the damper of the fine belt made for accurate yet rapid

weighing into predefined batch weights. The inside of the scales is rubber coated to ensure gentle handling.

Capacity is approx. 5 t/h in 10 kg batches.

Wheeled support legs and a bag supporter can be adjusted to suit individual operators.

Capacity approx. 5 t/h in 10 kg batches
 Drive unit Two 0,37 kW geared motors
 Compressed air supply 3 bar, 25 l/min
 Electrical connections wired for 3-phase N/PE~, 230/400 V, 50 Hz, 16 A

Batches are emptied into paper, netting or plastic bags, or into boxes, by pressing a foot pedal or pushing a button.
 Weighers are supplied complete with electronic scale. Scales permit settings for batch weights,

resetting and weightcontrolled emptying.
 An automatic tare system ensures that weight values are always correct even if dirt should fasten on the scale. For machines for weighing potatoes, onions and

other round or small products, see Brochure Weigher W-50. The weigher can also be used for 200 kg boxes or more. This is done by multiple dumps to a pre-set total weight.

Foot pedal or pushbutton for batch emptying
 Available in stainless steel
